HELPLESS HINATA HINJA

To find scrolls:

- First scroll- Can be located in screen #1. Kill transforming ninjas and the scroll will appear.
- Second scroll- Can be located in screen #4. Shoot at the tree status on the far left hand side 5 times and the scroll will appear.
- Third scroll- Can be located in screen #6. The scroll is in the second seasonal house. It is located in the corner next to the trees by the wall. Get the scroll and come over the foot bridge.
- Fourth scroll- Can be located in screen #8. Go through the entry way to the open field. Shoot at the last bush towards the back wall and the scroll will appear.
- Fifth scroll- Can be located in screen #8. Crawl up the wall, disappearing really helps, stay on the right side as you make your way up. When you reach the ceiling rocks, shoot the hole at the far right side 4 times. This will stop the rocks. Go up past the rock holes, start climbing the main base of this round. After a few seconds of climbing, go to the far right side of the screen, on the same wallway the base was on (almost above the rock hole you shot) the scroll will appear.
- After the fifth scroll, screen #9 will appear with a message box inside the scroll scroll. obey the message for the tenth screen.
- On the tenth screen, go to the third郎 that is closest to the castle. Get as close as possible. Push the control pad to the left and push button B three times, so that you are shooting three times to the left. Reposition your man so he faces in another direction and disappear three times. A staircase will then open up and the screen will change. Below is a maze. To get through the maze go left, right then left again and keep running!

The Blue scrolls will enable you to move faster. The Red scrolls will give you Stars and Weapons.

Dear Sega Customer:

Sega's Ninja video game is a great game! However, in order for you to get the most enjoyment from the game, you have to have the proper instructions on how to play it. That's where we failed! Sega apologize for not providing you with all the necessary information that you needed to enjoy Ninja to the maximum, and we've included these "Helpful Hints" below. If you need any other information or have any other questions about Sega products please don't hesitate to call our Customer Service Department at (0111) 742-6300 (Tijuana, California) or 800-USA-2226 (outside California). Once again, we apologize for the inconvenience and we hope you continue to enjoy Sega's exciting games for a long time to come.

To FIND SCROLLS:

First Scroll...Can be located in screen 1. Kill transforming ninja and scroll will appear.

Second Scroll...Can be located in screen 4. Shoot at the statue on the left hand side five times and the scroll will appear.

Third Scroll...Can be located in screen 4. Scroll can be located under the tree next to the house.

Fourth Scroll...Can be located in screen 8. You can find the scroll under the very top of the large rock the second natural house.

Fifth Scroll...Can be located in screen 9. Go to the very top of the cone wall on the right hand side.

After the Fifth Scroll, Screen 9 will appear and a message will appear from inside the secret scroll. Obey the message for the 10th screen.

Also in Screen 9, stones will come out of the hole in the stone wall. Shoot at the hole 40 times to stop the stones from coming out of the wall.

Screen 10...Go to the third hole that is closest to the castle. Get as close as possible. Push the control pad towards the left and push button number one three times so you are shooting three times to the left. Then re-position your gun so it faces another direction and disappear three times. A enemy will then come up and the screen will change. Below is a Note. To get through the hole go left, right then left again and keep running!

Blue Scroll...Allows you to move faster.

Red Scroll...Gives you stars as weapons.
